KHUSHNOOR

FULL STACK WEB DEVELOPER

+91-8882168374 | khushnoorali66@gmail.com | New Delhi, India

PROFILE SUMMARY

Full Stack Developer with 3+ years of experience building and maintaining production web applications using PHP/Laravel and the MERN stack. Hands-on experience across LMS platforms, CRM systems, dynamic and e-commerce websites, REST API development, third-party integrations, database design, and AWS-based deployment. Strong track record of working independently on existing codebases as well as building new features from the ground up, with a focus on clean backend logic, reliable APIs, and on-time delivery.

PROFESSIONAL EXPERIENCE

Full Stack Developer | *Jr Classes* **Aug 2025 – Jul 2026**

- Built and maintained an educational LMS and student portal using Laravel on the backend and Node.js for supporting services.
- Designed and developed Node.js APIs for authentication, course management, and student progress tracking.
- Implemented course creation, enrollment, and assessment features in the Laravel backend, working across the full request lifecycle from database schema to API response.
- Integrated the Zoom Meetings API to support scheduled live classes directly from the student portal.
- Set up and maintained CI/CD deployment pipelines using Bitbucket Pipelines with AWS, reducing manual deployment steps and release turnaround time.

Sr. PHP Developer | *Web Flow India Marketing Services* **May 2023 – Jul 2025**

- Developed and maintained PHP/Laravel websites and web applications across multiple client accounts, adapting architecture to varied business requirements.
- Owned backend logic, database design, and query optimization; resolved production bugs and shipped new features on client timelines.
- Collaborated closely with UI/UX designers to translate visual layouts into responsive, functional web pages.
- Built CRM, dynamic content, and e-commerce websites with API-based functionality connecting frontend, backend, and third-party services.
- Acted as a point of contact on several client projects, balancing new feature development with ongoing maintenance and support.

PHP Developer Intern | *Web Flow India Marketing Services* **Nov 2022 – May 2023**

- Worked with PHP, MySQL, HTML, CSS, and JavaScript to build and support live web applications.
- Handled debugging, functional testing, and basic backend development tasks under senior developer guidance.
- Built enquiry and contact forms with both frontend and server-side validation to ensure clean, reliable data capture.

KEY PROJECTS

Dynamic & E-commerce Websites: Multiple client websites built and maintained with PHP/Laravel, MySQL, HTML, CSS, and JavaScript, including admin panels, database-driven content, and product management.

CRM — Balaji Traders: Custom CRM to manage technicians, supervisors, customer issues, site visits, and job status; built supporting APIs for communication between application modules.

LMS & Student Portal: End-to-end learning management system for course delivery, content management, and student progress tracking; developed Node.js APIs and integrated the Zoom Meetings API for live classes.

SEO Automation Tool: PHP-based tool to auto-generate state/city landing pages and XML sitemaps, improving search engine indexing and organic discoverability.

TECHNICAL SKILLS

Backend: PHP, Laravel, Node.js, REST API Development

Frontend: React.js, JavaScript, HTML5, CSS3

Database: MySQL, MongoDB

Cloud & DevOps: AWS, Git, Bitbucket Pipelines, CI/CD

Other: API Integration, SaaS Applications, On-Page SEO

EDUCATION

B.A. Programme — University of Delhi, School of Open Learning (DU SOL) 2021 – Present
Pursuing

Advanced Diploma in Computer Applications (ADCA) — Sardar Patel Academy & Research Center, Dwarka Jun 2021 – Jun 2022
